SUBJECT: Common Measures Policy for the Employment and Training Administration's (ETA) Performance Accountability System and Related Performance

1. **Purpose.** The intent of this guidance is to further clarify the application of the literacy/numeracy measure, initially provided in Attachment C, Educational Functional Level Descriptors, in Training and Employment Guidance Letter (TEGL) 17-05, issued February 17, 2006. This change TEGL only addresses specific reporting changes for the Youth literacy/numeracy measure.
2. **References.** President's Management Agenda,
<http://www.whitehouse.gov/omb/budget/fy2002/mgmt.pdf>
 Director's Memorandum M-02-06,

3. **Background.** ETA published TEGL 17-05 on February 17, 2006. TEGL 17-05 includes guidance on the literacy/numeracy measure for youth participants. This change TEGL provides additional clarification on the measure, to be consistent with guidance from the Department of Education.

RESCSSIONS TEGL 7-99; TEGL 6-00; TEGL 6-00 change 1; TEGL 28-04	EXPIRATION DATE Continuing
--	--------------------------------------

4. **Revisions.** This change TEGL updates TEGL 17-05 to revise the Educational Functioning Level descriptors (EFL) table (Attachment A) from the Department of Education. ETA is implementing the revised EFL definitions for PY07, effective July 1, 2007. In addition, this change TEGL provides a new table that illustrates the difference between the new and old EFL tables (Attachment B) and includes the literacy/numeracy specifications table (Attachment C) with a column that helps to further clarify the specifications. There is also a new Workforce Investment Act Standardized Record Data (WIASRD) record layout for the literacy/numeracy specification (Attachment D, Section 3), which incorporates the changes. Finally, there is now a third option for Element 701, Category of Assessment, which will allow states to choose both Adult Basic Education (ABE) and English-As-A-Second-Language (ESL).
5. **Action Required.** These modifications to ETA's Youth performance accountability system are effective July 1, 2007. Please make this information available to appropriate program and technical staff.

716 to 743	Information on Additional Functional Areas	The collection of ABE/ESL assessment data for youth who are basic skills deficient is organized according to the Type of Assessment Test and Functional Area, providing space for the collection of up to 3 annual post-test scores in each functional area. Additional space has been provided on the record layout so that information on youth achievement in more than one functional area (e.g., reading, mathematics) can be reported as needed to fully reflect progress toward literacy or numeracy gains. For example, if the youth is assessed using TABE 9-10 in Reading and Math, data elements 702-715 will be used to track achievement in the Reading functional area (if necessary, for up to 3 full years) and then repeat to track achievement in the Math functional area (if necessary, for up to 3 full years) using the additional spaces 716-729 provided on the record layout.
